HYDRO-ACTION SALES MANAGER 2055 PIDCO DR PO BOX 640 PLYMOUTH IN 46563

Re: Description: SEWAGE TANKS, FIBERGLASS

Manufacturer: HYDRO-ACTION

Product Name: PUMP Model Number(s): 500 GALLON

(51.0 L.L; 8.32 GAL/IN., 18 IN. MAX. DEPTH OF BURY; TANK DIMENSIONS = 47.91 IN.

DIA. X 51.0 IN. H)

Product File No: 20110264

The specifications and/or plans for this plumbing product have been reviewed and determined to be in compliance with chapters Comm 82 through 84, Wisconsin Administrative Code, and Chapters 145 and 160, Wisconsin Statutes.

The Department hereby issues an approval based on the Wisconsin Statutes and the Wisconsin Administrative Code. **This approval is valid until the end of September 2016.**

This approval is contingent upon compliance with the following stipulation(s):

- This tank must be designed to withstand the pressures to which it will be subjected.
- The manufacturer must keep at the manufacturing plant a set of plans and specifications bearing the department's stamp of approval. The plans and specifications must be open to inspection by an authorized representative of the department.
- This product must be installed in accordance with the manufacturer's printed instructions, the plan approval and s. Comm 83.15 (4), Wis. Admin. Code. If there is a conflict between the manufacturer's instructions and the plan approval, the plan approval and code requirements will take precedence.
- Installation and servicing of this product must be in accordance with the manufacturer's instructions. A copy of the manufacturer's installation and servicing instructions must be given to the owner of the system.
- The manhole cover shall be provided with a locking device that conforms to s. Comm 84.25 (7)(h) of the Wisconsin Administrative Code.
- Bedding: Tanks must be placed on suitable soils capable of bearing the weight of tank and contents when full. Soft soils or bedrock must have 6 inches of tamped material, sand or pea gravel.
- Backfill: Fill must be free flowing soil or gravel of no larger than ¾ inch. Fill tanks with water while backfilling. Compact soil in 2-foot increments until backfill is at grade.
- Additional information is included as attachment(s) to this letter; see attachment A and B.

This approval supersedes the approval issued on 4/22/2005 under product file number 20050171.

This approval letter shall be incorporated with your previously approved plans and/or specifications approved under product file number 20050171.

As of May 15, 2008, a copy of a successful water tightness test report for this product must be AVAILABLE FOR INSPECTION AT THE MANUFACTURER'S PLANT prior to this product being used as a POWTS holding or treatment tank in Wisconsin.

The department is in no way endorsing this product or any advertising, and is not responsible for any situation which may result from its use.

Sincerely,
